

# All Seasons Cover Specifications

## 1. High-Performance Fabric

Constructed from 600D Oxford fabric, known for its strength and durability, ensuring long-lasting use.

## Breathable

The PTFE breathable membrane allows moisture to escape, preventing condensation while maintaining the cover's structural integrity.

## Quick-Dry

Incorporates 75D knitting fabric for quick-dry performance, so your cover stays ready and effective, adapting seamlessly to varying weather conditions.

## Waterproof and Weather-Resistant

Protect your fire feature with a fully waterproof cover, designed to keep it dry and in top condition regardless of the weather.

## UV and Fade-Resistant

Our covers are treated with a UV-resistant coating to safeguard against the sun's harsh rays, ensuring your fireplace continues to look as good as new.

## 2. Prevents Water Pooling

Innovative PVC cones support the cover to prevent water pooling, keeping it secure and functional during heavy rain.

## Glass Fire Screen Compatible

Thoughtfully designed to accommodate models with a Glass Fire Screen, offering versatility without compromising on fit or shielding.

## 3. Stays Secure

A practical elastic cord at the bottom ensures the cover remains secure and in place, even in strong winds.

## Built for Tough Conditions

These covers are made to handle extreme weather—from hot summers to cold winters—ensuring year-round protection.

Wharf 65	MAD.5.A.AS.LT65	2 Cones

**Step 1** - Build the cones by rolling and inserting the tabs into premade slots.

**Step 2** - Some models use two different cone heights. Place the taller cone inside the burner/pebble tray area.

**Step 3** - Pull the cover all the way down and release the elastic skirt to completely cover the unit.

Application	Indoor & Outdoor
Colour	 Black
Material	UV Coated Oxford Fabric
